Goals	<ul style="list-style-type: none"> • Create a web platform for shared desk management • Development of a prototype in the given project environment • Ease the process of booking desks for users • Achieve high grades
Meeting norms	<ul style="list-style-type: none"> • Arrive on time • Respect each other • Don't intentionally interrupt each other • Keep your camera on • Be actively involved in questions and uncertainties • Don't do work during the meeting
Working norms	<ul style="list-style-type: none"> • Respect the role (tasks should be given only according to your role) • Minimize procrastination • Have fun
Coordination norms	<ul style="list-style-type: none"> • Seek help on time when having difficulties • Be transparent
Communication norms	<ul style="list-style-type: none"> • Use Whatsapp for communication • Group e-mail • Be nice • Connect with each other out of the weekly meeting schedule • Language : Primary in English
Consideration norms	<ul style="list-style-type: none"> • Respect different knowledge levels • Equality • Every idea has equal weight and is worth mentioning • Don't make changes or decisions without discussing with the team
Cont. improvement norms	<ul style="list-style-type: none"> • Feedback • Re-check code • Pair programming • Take time to read the topics and make sure you understand the task
Rewards	<ul style="list-style-type: none"> • Physical meet up for big celebrations • Virtual party
Sanctions	<ul style="list-style-type: none"> • Do pushups or sing if you are late • Discuss what went wrong and try to learn from it • Wear a Halloween costume during the team meeting

Signed by	Svenja Strobel, Fiona Sternberg, Felix Lang, Ardian Palloshi, Alex Koltman, Moritz Reich, Eddy Hakimi, Stefan Pfahler, Philipp Wörndle, Jan Tiegges

Product Vision	Project Mission
<p>As a mix of homeoffice and working in the office is becoming more popular, many companies are reducing the number of desks in the workplace to save money. Deskstar allows employees to book desks from home to make sure they have a workplace available when traveling to the office. This way unnecessary trips are avoided when no desks are available and companies can find out in which areas more bookable resources are needed. Our service thus makes the lives of companies and their employees easier regarding novel hybrid working spaces.</p>	<p>Our project mission is to create a prototype version of a shared desk management system in the given timeframe as a web application supporting the most important requirements of our industry partner. Our system will cover basic booking functionalities for users as well as resource and user management for admins. To meet this goal, we will maintain a strong relationship within the team and with the industry partner and work together in a friendly atmosphere.</p>

			Optimize dark mode	1		1	
			Git commit pipeline	5		5	
			Connect FE and BE for bookings on overview page and bookings overview page	5		5	
7	Add main functions	Further important functions necessary for the system					
			Move navigation bar to the side	3			
			Personal desk booking - search function	5			
			Resource booking - book function	8			
			User data endpoint	3			
			Approve/Decline user	5			
			Create testing framework for front end	5			
8	Resource and improved approve functions	Add functions for adding resources and quick user approval for the admin					
			Connect user management to backend	5			
			Connect resource management to backend	5			
			Add desk	5			
			Add room	3			

Sprint	Theme	Goal	Feature Name	Est. Size	Est. Remaining	Real Size	Real Remaining
			Add floor	3			
			Add building	3			
			"Approve all" button	3			
9	Resource and booking management	Add more options to manage the booking and resources, such as deleting and editing					
			Refactor bookings	2			
			Set up email server	5			
			Secure admin routes	3			
			Delete booking	3			
			Edit resource	5			
			Delete resource	3			
			Edit bookings	5			
			Show all booked and non booked desks	3			
10	User management	Add features to edit the users in the system and prevent errors as well as improved registration					
			Send email when account is approved/rejected	5			
			Delete user	3			
			Edit user	5			
			User profile	3			
			Initial admin registration	5			
			Register with company name instead of ID	5			
11	Design and further functionalities	Improve the design of the UI and add more functions					
			Last admin cannot delete access	3			
			Make overview page pretty	5			
			Recurring bookings	8			
			Add meeting rooms	8			
12	Advanced functionalities	Add functions that would be helpful for the admin and system					
			Book for someone else	5			
			Reports	8			
			Add groups	8			
13	Final functionalities	Add the final features					
			Verify email address	8			
			Upload Profile Picture	5			
			Profile modification	5			
14	UI improvement	Improve and update the UI					
			Contact Support	5			
			Clean up UI and improve design	8			

Sprint	Theme	Goal	Feature Name	Est. Size	Est. Remaining	Real Size	Real Remaining
			Homepage UI	5
