<b>Goals</b>	<ul style="list-style-type: none"> <li>• Create a web platform for shared desk management</li> <li>• Development of a prototype in the given project environment</li> <li>• Ease the process of booking desks for users</li> <li>• Achieve high grades</li> </ul>
<b>Meeting norms</b>	<ul style="list-style-type: none"> <li>• Arrive on time</li> <li>• Respect each other</li> <li>• Don't intentionally interrupt each other</li> <li>• Keep your camera on</li> <li>• Be actively involved in questions and uncertainties</li> <li>• Don't do work during the meeting</li> </ul>
<b>Working norms</b>	<ul style="list-style-type: none"> <li>• Respect the role (tasks should be given only according to your role)</li> <li>• Minimize procrastination</li> <li>• Have fun</li> </ul>
<b>Coordination norms</b>	<ul style="list-style-type: none"> <li>• Seek help on time when having difficulties</li> <li>• Be transparent</li> </ul>
<b>Communication norms</b>	<ul style="list-style-type: none"> <li>• Use Whatsapp for communication</li> <li>• Group e-mail</li> <li>• Be nice</li> <li>• Connect with each other out of the weekly meeting schedule</li> <li>• Language : Primary in English</li> </ul>
<b>Consideration norms</b>	<ul style="list-style-type: none"> <li>• Respect different knowledge levels</li> <li>• Equality</li> <li>• Every idea has equal weight and is worth mentioning</li> <li>• Don't make changes or decisions without discussing with the team</li> </ul>
<b>Cont. improvement norms</b>	<ul style="list-style-type: none"> <li>• Feedback</li> <li>• Re-check code</li> <li>• Pair programming</li> <li>• Take time to read the topics and make sure you understand the task</li> </ul>
<b>Rewards</b>	<ul style="list-style-type: none"> <li>• Physical meet up for big celebrations</li> <li>• Virtual party</li> </ul>
<b>Sanctions</b>	<ul style="list-style-type: none"> <li>• Do pushups or sing if you are late</li> <li>• Discuss what went wrong and try to learn from it</li> <li>• Wear a Halloween costume during the team meeting</li> </ul>

Product Vision	Project Mission
<p>As a mix of homeoffice and working in the office is becoming more popular, many companies are reducing the number of desks in the workplace to save money. Deskstar allows employees to book desks from home to make sure they have a workplace available when traveling to the office. This way unnecessary trips are avoided when no desks are available and companies can find out in which areas more bookable resources are needed. Our service thus makes the lives of companies and their employees easier regarding novel hybrid working spaces.</p>	<p>Our project mission is to create a prototype version of a shared desk management system in the given timeframe as a web application supporting the most important requirements of our industry partner. Our system will cover basic booking functionalities for users as well as resource and user management for admins. To meet this goal, we will maintain a strong relationship within the team and with the industry partner and work together in a friendly atmosphere.</p>

			Connect user management to backend	3			
			Connect resource management to backend	3			
			Refactoring backend and frontend	5			
			Personal desk booking - search function	3			
			Resource booking - book function	3			
			Approve/Decline user	5			
			"Approve all" button	3			
9	Resource and booking management	Add functions to add resources + manage bookings and set up some frameworks for later features					

Sprint	Theme	Goal	Feature Name	Est. Size	Est. Remaining	Real Size	Real Remaining
			Add desk	8			
			Add room	3			
			Add floor	3			
			Add building	3			
			Refactor bookings	2			
			Set up email server	5			
			Secure admin routes	3			
			Delete booking	3			
10	User management and advanced resource management	Add features to edit the users and implement advanced resource management functions					
			Edit bookings	5			
			Resource management for locations, buildings etc.	8			
			Edit resource	5			
			Delete resource	3			
			Show all booked and non booked desks	3			
			Delete user	3			
			Edit user	5			
11	Improved registration	Improve the registration + approval process and make slight UI improvements					
			User Profile	3			
			Send email when account is approved/rejected	5			
			Initial admin registration	5			
			Register with company name instead of ID	5			
			Last admin cannot delete access	3			
			Make overview page pretty	5			
12	Advanced functionalities	Add functions that would be helpful for the users					
			Add meeting rooms	8			
			Book for someone else	5			
			Recurring bookings	8			
			Add groups	8			
13	Final functionalities	Add the final features for users and admins					
			Reports	8			
			Verify email address	8			
			Upload Profile Picture	5			
			Profile modification	5			
14	UI improvement	Improve and update the UI					
			Contact Support	5			
			Clean up UI and improve design	8			
			Homepage UI	5
